

Our Golden Threads

Geography

We have identified a set of key geographical concepts that we have called golden threads that children will repeatedly visit throughout their time at St Marie's RC Primary School. Whilst the children may not focus on every thread each year, they will return to revisit the threads and make links across the years/Key Stages. These golden threads form both the substantive knowledge and concepts and disciplinary knowledge and concepts that the children encounter over the years

Our golden threads for substantive knowledge are:

Ambassadors for Creation: The Natural World

A Sense of Place: Where in the World?

Local Identity: Here and Now

Marvellous Mapping

Weather and Tourism

The golden threads of disciplinary knowledge in our curriculum are:

Mapping Skills

Fieldwork

Cause and Consequence

Similarity and Difference

Enquiry (Question and Challenge)
